* Avg does not include 2020 data

UNOLS Fleet Operational Days (2012 - 2022) by Agency

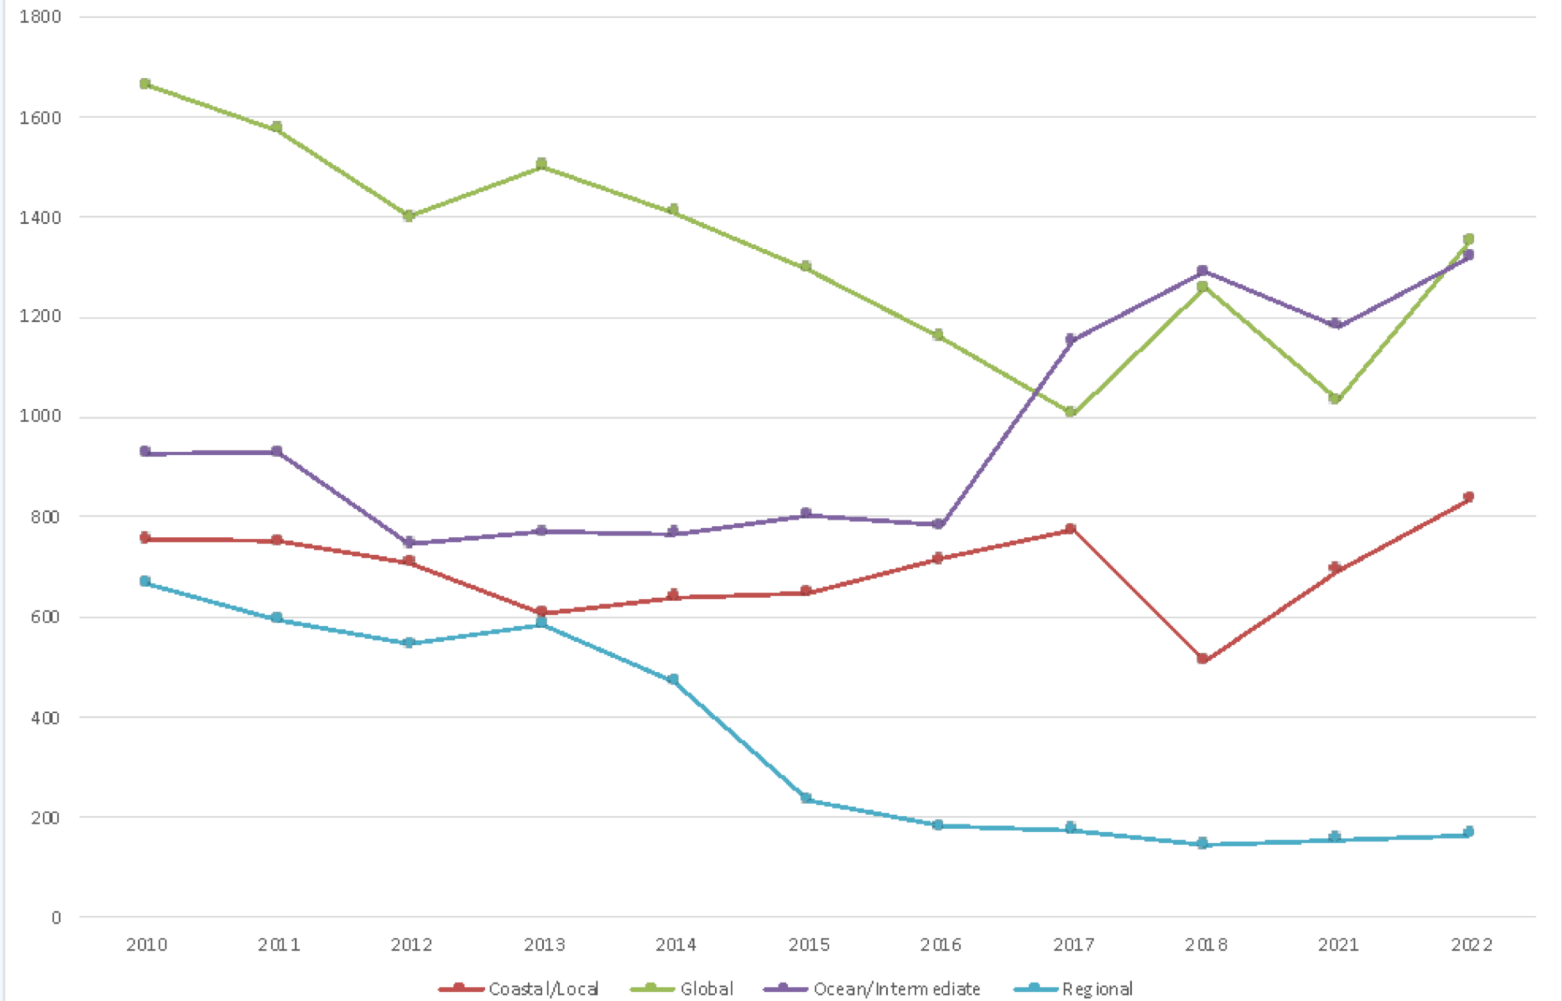

** 2022 data from MFP

* Averages do not include 2020 data

Fleet Days per Class
2010 - 2022

2023 Schedules

- Global/Ocean Schedules are well on their way
Competing ROV demands to balance
- Still working through the backlog
- Schedules for the Global/Ocean are looking healthy
- Schedules for the smaller vessels are still TBD
- Global/Ocean schedulers are already looking to 2024 and how they can accommodate the delayed projects.
- NOAA RON BROWN going into mid-life refit
NOAA may need some assistance for some 2024 projects
