STEMSEAS Participant Demographics

Having participated in the STEMSEAS program, how have your CAREER **goals changed**, if at all? How did the program influence those changes? Please be specific and give examples.

Having participated in the STEMSEAS program, how have your ACADEMIC/EDUCATIONAL **goals changed**, if at all? How did the program influence those changes? Please be specific and give examples.

Amazing impacts on career trajectory

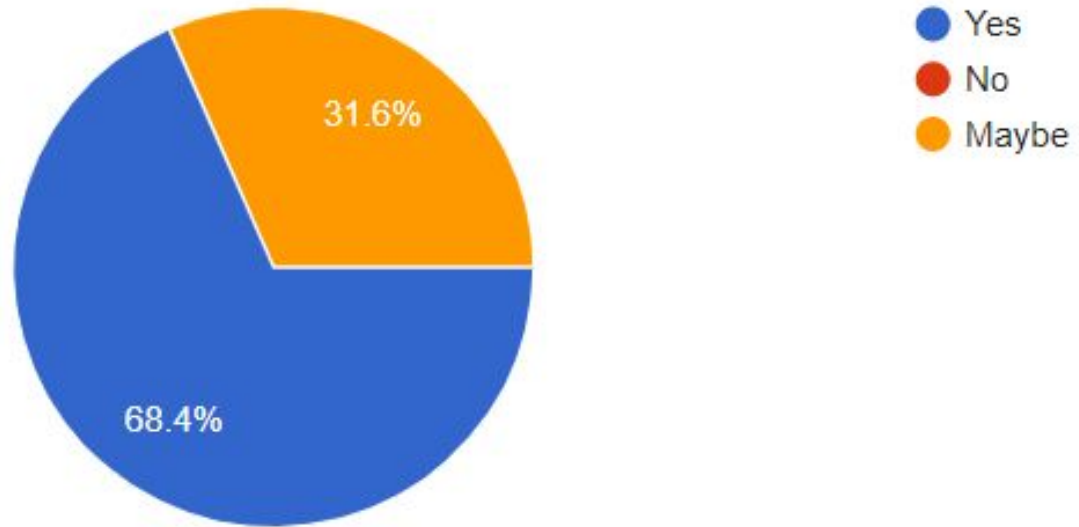

“Having the opportunity to go on this trip with STEMSEAS has been the single greatest thing I have ever done. I am so thankful for the opportunity that it has given me. I will never forget it.” – 2016 participant

“Disclaimer: I know I’m rating everything 10, but I honestly feel this way. It was chilling to have real scientist who make a living off of their research as our peers and mentors. Never have I actualized the possibility of being a scientist like I did during our transit. I feel so happy and hopeful for the future, and I hope it’s a future filled with research.” – 2019 participant

Are you interested in participating in STEMSEAS on-line events over the next 4-6 months?

What topics are you interested in? (select as many as you want)

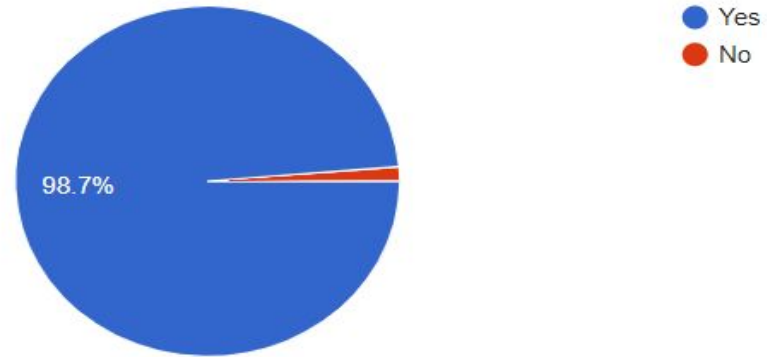

76 responses

I am interested in being considered for STEMSEAS 2021

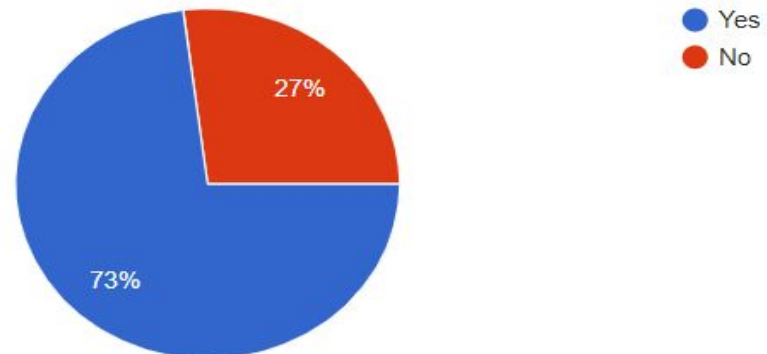

76 responses

I am interested in scheduling one-on-one mentoring/chat with a STEMSEAS alumnus or mentor:

74 responses

How can we make lemonade right now?

- Virtual events!!!
 - Lectures from scientists
 - Chats with crew
 - Telepresence (or even just HiSEASNET or cell if close to shore) connections to cruises
 - Opportunities for students to participate as shore-based assistants with expedition data
 - Alumni chats
 - Ship capabilities seminar
 - Mentoring: how to find research experiences or apply to grad school
 - **What else?!! More ideas welcome!**
