

The Human Side of Enviro

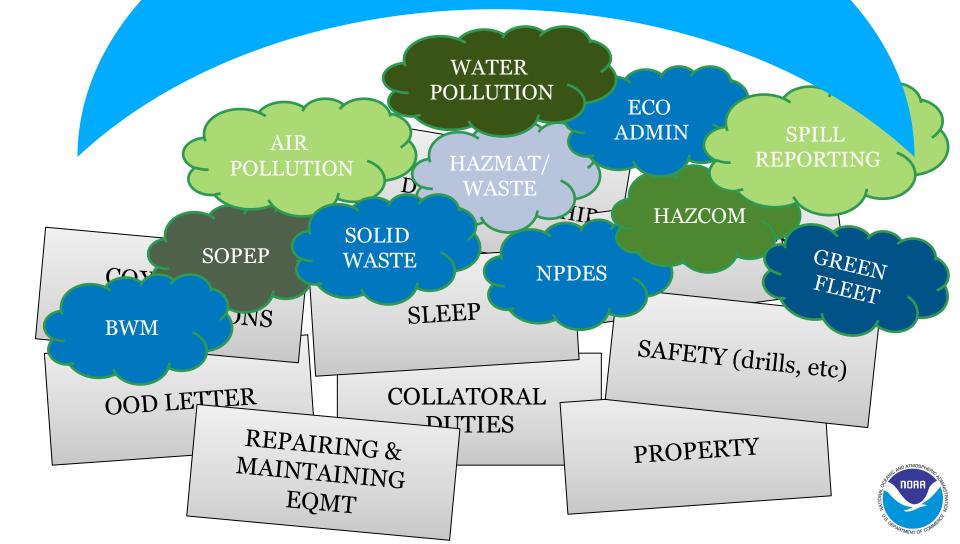

Cultivating a culture of compliance and beyond

The challenge

WHAT DO I ACTUALLY DO? HOW CAN I BE MOST EFFECTIVE?

Human Side of Enviro

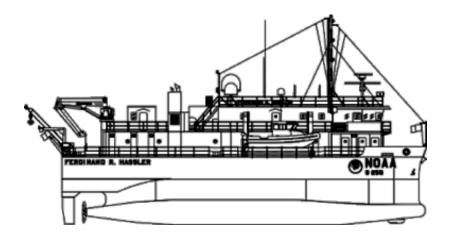

1. Procedures are nice... but not enough

2. Training Your People

3. Supporting Your People

4. Going Beyond Compliance

5.Questions

Procedures alone don't work

	Green Fleet Work * LEDs * Energy Efficiency *		
SOPEP 0701-03		HEARING CONSER	VATION 1701-04
FUEL OIL TRANSFER 0601	0601-01 AIR POLLU		ODS & Fueling
OILY MATERIALS MNG	Г	SOLID WAS	TE 0701-19
BALLAST WATER 0701-0	2	MISSION HAZN	ИАТ 0701-22
WASTE WATER 0701-18	3	HAZMAT	0701-XX
NPDES 0701-06		HAZWASTE 0701-05	
ECO DUTIES 0701-XX		HAZCOM	0701-04

II. TRAINING YOUR PEOPLE

Hit the ground running

Enviro Training

- ECO Workshop
 - Five Day Crash course on ALL ENVIRO REGS
- Oil Record Book
- CO one-on-one (ship specific for new COs)
- NOAA-specific HAZWOPER
- And more

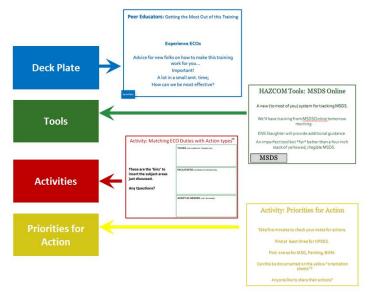

But let's take a look at the elements that make these trainings work...

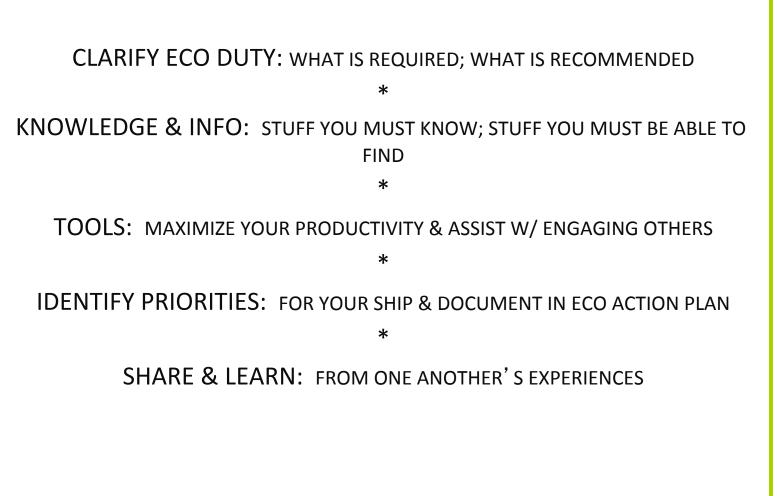

Why does our training work?

- Specific to the audience
- Not JUST webinars and slide clicking
- The audience members take the lead
- It comes with resources and tools to guide the individual AFTER training (more on that in a moment)

What do we teach at ECO Workshop?

III. SUPPORTING YOUR PEOPLE

Training is just the beginning

Customer Support

- They've got training
- They've got resources and tools
- They also have us to help nearly 24/7

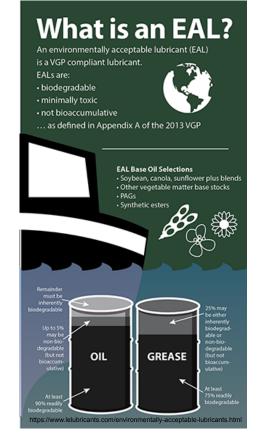

IV. GOING BEYOND COMPLIANCE

Now you get even better

Green Fleet Projects

- Reusable shipboard mugs
- Onboard recycling
- EALs
- LED Lighting
- Vessel Fuel Management System

Analyzing our spills

- Okay we now know WHAT to report, WHEN to report, and WHO needs to know
- What can we do with that info? Maybe if we collect it and look deeper, we can see some common root causes and prevent some repeat spills...

- Audience specific training to help people know what they know, and know what they don't know.
- If they don't know something, they know where to turn to for help.
 Either tool, resource, or us.
- This is increasing our compliance and shifting our overall culture from "ugh what a pain" to "yeah this is the thing we do."
