WORK HISTORY

◆ June 2007 – Present: Oak Island Marine, Oak Island, NC

Senior marine technician. Parts manager. Warranty claims, and service writer. I specialize in Verado, Optimax, and Etec engines. Very experienced with all aspects of the Mercury systems including working with CDS, EPC, AND MERCNET. Very experienced with all aspects of BRP ETEC systems including working with Evinrude diagnostics, EPC, and DEALERPORT. Manage daily shop operations. In charge of ordering parts for all repairs and to maintain consistent shop inventory. Handle all warranty issues for Mercury and Evinrude to include filing claims and part returns. Register all new Mercury and Evinrude engines. Write out service invoices for billing. Assist customers with questions/concerns about their boats and engines. Make recommendations to customers for optional work to improve performance and for preventative maintenance. Tow boats up to 32' on public roads. Operate boats up to 40' for diagnostic tests.

◆ March 2007- May 2007: Cape Fear Yachts, Wilmington, NC

Marine technician servicing Yamaha and Mercruiser inboards and stern drives

◆ November 2004-March 2007: Freeze Marine, Oak Island, NC
