

- Agency plans and budget forecasts (agencies)
- USCGC Healy (J.Freitag)
- ISM and implications (Paul Ljunggren)
- Quality of service (Mike Prince)
- Basic tech support (Sandy Shor *et al.*)
- Future fleet renewal (FIC)
- Scheduling

- Prior years of underutilization of big ships (5 Navy, 1 NSF)
- Layups, pressure toward retirements
- ONR/Navy concerns, actions
- New “customers” (NAVO, LWAD)
- Multiple sponsors, multiple constraints
- Current-year “overbooking” and constraints - LWAD times, ROVs

- Delayed resolution (July vs. Oct. (?))
- One-year or trend? (AGOR 26)
- Similar crunch could happen with existing fleet or with fewer ships
- MSR clearance aspects

- Communicate problem(s) and tradeoffs to PIs, seek feedback
- Criteria for prioritizing, deferring - needs consensus (not just UNOLS)
- Recognize efforts of schedulers, agencies toward best, if imperfect, result
