Woods Hole Oceanographic Institution

SAMPLE AND DATA LOG

Cruise: _____ Leg: _____ Dates: _____
Location: _____ Chief Scientist: _____

Assignment of Responsibility and Data Archive Restriction Waiver

1. Total Data Media, Video Tape and Film Quantities

ALVIN Dive Nos.: _____ to _____	ROV Lowering Numbers: _____ to _____
Data Media: Type _____ Number _____	Data Media: Type _____ Number _____
Video Media: Type _____ Number _____	Data Media: Type _____ Number _____
Ext. Digital Still Images: Format _____ Number _____	Video Media: Type _____ Number _____
Int. Digital Still Images: Format _____ Number _____	Digital Still Images: Format _____ Number _____
External 35mm Film: _____ rolls	External 35mm Film: _____ rolls

2. I **do** ___/___ **do not** ___ grant permission for the National Deep Submergence Facility (NDSF) to use the data media, video tape and film obtained from the above listed cruise for internal operational purposes (pilot briefing, equipment development, performance analysis, etc.).

3. Occasionally, the pilot's hand-held camera pictures are requested for general public relations and funding agency information purposes. Please indicate below if you are willing to waive the standard two-year archive restriction on the pilot's hand-held photographs.

I **do** ___/___ **do not** ___ grant permission for unrestricted use of the pilot's hand-held camera photographs.

4. The frame-grab images with associated data collected from the video inputs during each dive/lowering are useful for both general science and public outreach. Please indicate below if you are willing to waive the standard two-year archive restriction on these images and data.

I **do** ___/___ **do not** ___ grant permission for the NDSF to use frame-grab images with associated data obtained from the above listed cruise for **release to the public** via the NDSF archives, NDSF shipboard servers and the world wide web.

5. In accordance with the NDSF Archiving Guidelines (see copy on the shipboard web site or www.whoi.edu/marops/vehicles/archiving.html), the scientist whose name appears below is responsible for the proper disposition of samples collected during this cruise and will be the contact for altering access restrictions placed on archived material relating to this dive series. This person will receive duplicate copies of the cruise data.

Chief Scientist (or designee): _____ **Date:** _____
