

**Proposed Membership  
for  
Subcommittee on Data Management Best Practices**

In forming the subcommittee, committee size, institutional diversity, and UNOLS representation were key factors in the selection process:

- The committee size should be reasonable (the final list of volunteers had 19 names, too many for an effective committee).
- Many institutions were listed multiples times. It is much more important to have a diversity of institutional perspectives around the table, and then ask that each representative talk to his or her colleagues at home, bring white papers authored by colleagues at home to share with the rest of the subcommittee on important topics, etc.
- Representation from the UNOLS institutions was of high importance. Many of the other volunteers were put into the "Review and Comment" category.

Proposed membership:

- Arko, Bob (LDEO) - Ridge/Margins/MMI
- Case, James (UNH) - Marine mapping
- Chandler, Cyndy (WHOI) – Biol. & Chem. Oceanography Data Mgmt.
- Chapman, Piers (LSU) – Physical
- Fanning, Bill (URI) - RVTEC, User applications
- Forcucci, Dave (USCG) - Arctic experience
- Graybeal, John (MBARI) – OOI/MMI
- Johnson, Paul (UW) – Geology
- Measures, Chris (UH) – Chemical
- Mendelssohn, Roy (NOAA) - Fisheries
- Miller, Stephen (SIO) – Head, Geological Data Center
- Smith, Shawn (FSU) - Meteorology

Review and Comment:

- Schnebele, Kurt (NOAA - IOOS)
- Rutz, Steven (NOAA -NODC)
- Fox, Chris (NOAA- NGDC)
- Russell, Craig (NOAA - OE)
- Bob Houtman (ONR)
