2020 Nominee

Representative Susan Davis (D, CA 53)

Congresswoman Davis is retiring this year following a long career that has included sponsoring and supporting legislation that has been vitally important to Navy support of the ARF. Specifically providing new funding for DURIPS, serving as a leader on AGOR23-class mid-life refits, and research at sea via Navy's ASW and TFO programs. Ms. Davis's work has resulted in many tens of millions of dollars of support for scientists and infrastructure, throughout the US ARF, that otherwise would not have been possible.
