Consortium for Ocean Leadership

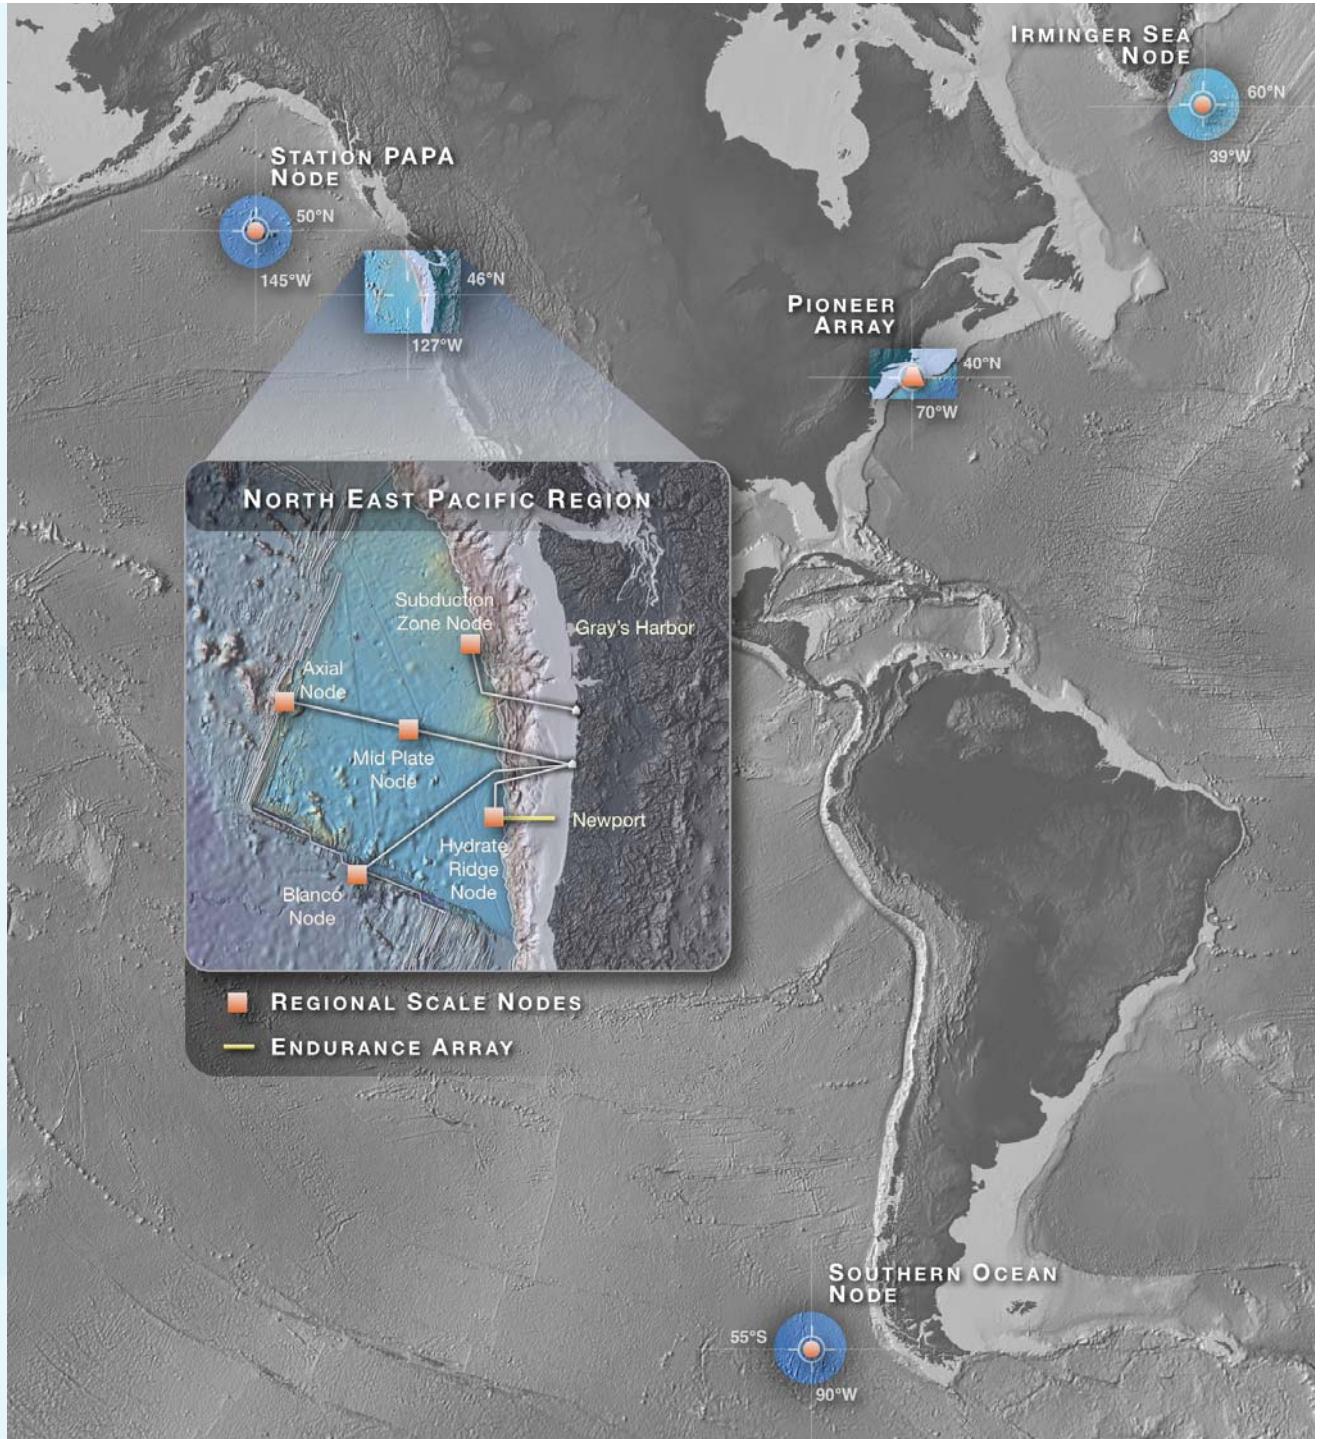

## OOI in 2007

- NSF/MREFC Capital Investment: \$331M over five years
- Operation Funding: Ramping to \$50M annually
- Design lifetime: 25 years
- Successful Conceptual Design Review, August 2006
- OOI funding included in FY 2008 Request
- Successful Preliminary Design Review, December 2007

## Current Status

- OOI funding profile absent in FY 2009 request
- FY 2010 request pending successful Final Design Review in November 2008
- National Science Board in spring 2009
- Pending NSB approval, construction to start in summer 2010
- Interim period: demonstration projects, reduce risks, prepare for acquisitions

- 3 Global scale nodes in Southern Ocean, Ocean Station Papa, Irminger Sea
- 5 Regional scale nodes in NE Pacific, cabled plate-scale observatory
- Coastal scale assets in Mid- Atlantic Bight shelf-break (Pioneer Array) and NE Pacific continental slope (Endurance line)
- Each scale incorporates mobile assets
- Cyberinfrastructure to enable adaptive sampling, custom observatory view, collaborative analysis
- Interfaces for education and public engagement
