The International Propeller Club
of the
United States

US Maritime Administration

Purpose

The aim of the plan is to teach Young America the necessity of maintaining an adequate American Merchant Marine and to assist in the education of our citizens of tomorrow. In addition to its patriotic implications, the plan fosters an interest in geography, history, transportation, science, math, trade and composition. It affords the nautically-minded student an outlet for interest in the sea bringing home to the captain and his crew the pride that Young America takes in its seamen.

UW Pilot Program

- September 2009
- Brookside Elementary School
(Lake Forest Park, WA)
- 5th Grade
- RV THOMAS G. THOMPSON

Teacher's Requirements

- 1) teacher fills out IPC application of interest
- 2) teacher should develop a program
- 3) correspondence begins every September with teacher requesting info from Captain
- 4) students then write a collective letter
- 5) letter every 4 – 6 weeks
- 6) ends May 15th

Adopt-A-Ship Program

Application for Ship Participation School Year 2007-2008

Please provide points of contact, addresses, and information for the class adopting the ship. This information will be provided to the teacher when an adoption match is made. Information on the school, class, and teacher will be provided similarly to you. An initial contact should then be made between the Master and teacher/class to begin the adoption. Please indicate if a previous relationship exists with a particular school or teacher and whether you desire to continue.

Name of Ship	
Name of Master	
Company	
Coordinator	
Mailing Address	
Telephone No.	
Email Address	
Ship Particulars	
Other Information (including information on previous teachers/schools you have worked with	
Date of Application	

Please return the completed application to US Department of Transportation, Maritime Administration,
Attn: Sharon LeGrand, Adopt-A-Ship Program, 1200 New Jersey Avenue, SE, Rm-W23-459,
