Action Items

MLSOC needs to help NSF “sell the science”

MLSOC to develop a glossy brochure

MLSOC to write a proposal to NSF for a workshop for 80-100 people

Identify non-traditional Users for Langseth, i.e. OPP, Extended Continental Shelf work, foreign users

MLSOC to hold a town hall meeting at AGU

MLSOC to engage broader science community

MLSOC to request Letters of Intent from community

MLSOC to write an article in EOS

Charge for the Meeting

This workshop needs to end with clear suggestions from the group on several topics:

- *Status Quo isn't working; Langseth proposals are not faring well*
- *Too expensive and unrealistic in approach*
- *Need to minimize transits*

Suggest that a volunteer take one of the topics and be responsible as scribe to capture the suggestions of the workshop.
