## University of Hawaii

Kilo Moana 257 Days

2009: 36 Day cruise for German Govt. for seabed mining Required permission from US Navy to do "outside" workFixed Bid Proposal in German

Nov 2009- Russ Davis cruise to deploy drifting buoy- Research team spent a week alongside modifying cruise plan with UH Marine Staff

## University of Washington

Thomas G. Thompson 330 Days

Clifford A. Barnes 58 Days

2009 ROPOS cruise, Neptune Canada and U. Victoria

Second Dimes cruises off Punta Arenas 130 CTD casts

2010 OOI cruise at JdF

# **Oregon State University**

Wecoma 176 Days

40 Day NOAA mooring cruise off Galapagos

OOI Endurance array cruises in 2010

## Moss Landing Marine Laboratories

Pt. Sur 149 Days

Almost 50 days off Alaska in 2009 including BEST mooring work.

Same programs scheduled again in 2010.

## University of California at San Diego Scripps Institute of Oceanography

Melville 312 Days

New Horizon 187 Days

Robert Gordon Sproul 147 Days

Roger Revelle 312 Days

Cruise Highlights:

NH SEAPLEX Cruise: Study of plastics at the Pacific Ocean Garbage Patch

Melville: INSPIRE cruise off Chile, UC NOAA funded

> Began planning in 2002, diverse scientists and sample collection

## University of Minnesota

Blue Heron 94 Days

May 2010- Geophysical cruise to map fish spawning habitat in Lake Huron.

June 2010- Service seven subsurface moorings on Lake Superior

#### Louisiana Universities Marine Consortium

Pelican 221 days

31 cruises in Gulf of Mexico-ROV, AUV, Deep moorings Mud grabs, Box and piston cores

Recent Upgrades: USBL Tracking Markey Com-7 CTD Winch

## University of Miami/RSMAS

F.G. Walton Smith 123 Days

Extensive shipyard in early 2010 Increased cruising speed from realignment, clean hull and new propeller blades.

Cruise Highlight- NSF cruise to Bahamas utilizing a new nitrox diving system which supported 12 divers with nitrox for over 200 dives.

## Skidaway Institute of Oceanography

Savannah

2010 Schedule- 86 days

## Duke/UNC Oceanographic Consortium

Cape Hatteras 152 Days

Cayman Trench cruise- First cruise to use WHOI's Nereus ROV. Proof that a regional vessel can deploy an 5000 meter deep ROV

Two ship operations in Gulf of Mexico with Oceanus summer 2010

## University of Delaware

Hugh R. Sharp 148 Days

National Marine Fisheries Sea Scallop Survey

Cruise Dec 09-Jan10- With nuclear sub Alabama deploying and recovering targets for suboperated ROV

Dec 2009- Completed 24 month marine mammal, seabird survey studying effects of wind farm impact.

## Lamont-Doherty Earth Observatory

Marcus Langseth 173 Days

3D seismic cruise off JdF in 2009

Three seismic cruises scheduled in 2010

## University of Rhode Island

Endeavor 175 Days

Feb-March 2010- NSF Rapid Response cruise- Haiti Clearance completed in 2 weeks-

Deliver Plan USA HumanitarianAid

Multibeam/Chirp Sonar Survey at fault line near Port Au Prince

#### Woods Hole Oceanographic Institution

Oceanus 161 Days

Knorr 314 Days

Atlantis 321 Days

Atlantis: ROPOS cruise for installation of Neptune Canada NodesCruises using Sentry and Alvin Calnex/NOAA cruise

Knorr: 2 successful Long Core cruises in 2010 and 2 more to go. Third Geotracers cruise in fall

Oceanus: Deployment of the EASI buoy Two ship ops with Hatteras in GOM

## Bermuda Institute of Oceanography

Atlantic Explorer 132 Days

BATS cruises
