

# What is R2R?

- R2R – NSF’s data management plan for UNOLS routine underway data
- National Facility data not currently included
- Inspiring re-look at WHOI shipboard data policy and procedures
- UNOLS vessels as observatories
- URL is <http://rvdata.us/>

# R2R and NDSF

- No data management agreement between R2R and NDSF
- Some WHOI people and resources in common between these programs
- Successful R2R tools and ideas may be adopted by NDSF
