“A new approach to providing ocean science community with access to the sea”- COL Report May 5, 2011

- A new community-based process that builds on the decadal survey process to develop requirements, life cycle costs, priorities for plans for community infrastructure
- Recognize the fleet as a portfolio of capabilities
- New organizational framework building on UNOLS experience and broad community representation of the COL.
- Flexible portfolio of acquisition processes for ships. (Lease, Gov't Owned-Contractor operated, Build/Own, Private)
- New governance strategy for the federal agencies that formalizes their individual roles, responsibilities for ship design, acquisition and operations
- Multi-Year escrow account that can be used to develop a predictable level of resources for construction and operations

- **UNOLS REVIEW**

- * Review and response by FIC to the Council at the winter meeting
- * Review and discussion by Council at the winter meeting with response sent to COL and the agencies
