- Group purchase of 30 LCI-90i's
- Completed installs on Atlantic Explorer, Cape Hatteras, Endeavor, Kilo Moana, Pelican, Point Sur, Sharp, Wacoma.
- Currently scheduling Walton Smith, Healy and Polar Star

Discussion

- Who is collecting the data?
- Are Marine Techs responsible for collecting tension data?
- If collected, all data should be saved for full service life of the rope or wire and data shall be transferred with the wire if removed or transferred.
- Is R2R able to store the data?
- Audible alarms?
