

Some closing thoughts about the DESCEND2 meeting

- Check out the 1999 DESCEND meeting
 - We accomplished many (though not all) of the recommendations!
 - Advances in AUV technology (!!!)
 - 7000 m ROV (we got 6500 m)
 - Advanced HOV
- The DESCEND workshop likely played a key role in providing NSF with the guidance to support those programs
- The DESCEND2 meeting will likely do the same...
