

# NSF Report

RVTEC Meeting

October, 2017

Jim Holik

# FY 2018 Budget

- Once again, we are in a Continuing Resolution until December 8
- Presidential budget includes an ~10% reduction for NSF. Translates to about 36M reduction for OCE
- House and Senate budgets, however, include much smaller cuts (1-2%)
- House budget has no RCRV funding

# OCE Facilities

## Budget planning for FY 18

- Best case is that we are level funded.
- NSF stated that priorities are to protect core science funding
- Facilities (tech services and instruments) are most vulnerable
