
Improvements to R/V *Sally Ride*

Matt Hirsch

Marine Technician, Shipboard Technical Support

Scripps Institution of Oceanography, UC San Diego

R/V *Sally Ride* Improvements

Overview

- Timeline of Vessel Delivery
- Science verification process
 - Feedback from scientists
- Improvements made
 - Changes to labs and holds
 - Network/Infrastructure upgrades
- Next steps

R/V *Sally Ride* Background

- AGOR 28
 - Sister ship of the R/V *Neil Armstrong* (AGOR 27)
 - Auxiliary General Oceanographic Research vessel
- Owned by the Office of Naval Research (ONR)
- Operated by Scripps Institution of Oceanography (SIO)

SALLY RIDE

- Feb 2012
 - Approved for construction
- July 2016
 - Delivered, outfitting continued
- August 2016
 - SR arrived in home port of San Diego
- Sept-Nov 2016
 - Science verification cruises
- January 2018
 - Month-long in-port maintenance period

Christening Ceremony
SALLY RIDE

AGOR 28 Hull 59

Sponsor: Tam E. O'Shaughnessy, Ph.D.
Builder: Dakota Creek Industries, Inc.
Anacortes, Washington

R/V *Sally Ride* Survey

SCRIPPS INSTITUTION OF
OCEANOGRAPHY

- Provided a survey for users asking them to point out shortcomings and to offer suggestions
- No issue was too great or small
- Specific questions about:
 - Planning/welcoming aboard experience
 - Installed instruments/equipment
 - Network/computing
 - Ship spaces

R/V *Sally Ride* Feedback

- Improve amount of empty storage space in labs
 - Increase amount of work bench height and desk height seating
 - Increase configuration flexibility
- Improve use of Science Hold
- Starboard handling system not suitable for MOCNESS
- Lack of video feeds of deck operations
 - Worked with Ship's crew

- Aft Hold
 - Workbench, Niskin storage, storage lockers, shelves, chain binders, rope, -80C Freezer
- Restech Locker
 - Organization
- Lab spaces
 - Benchtop replacement and nesting table construction
- Computer lab
 - Organization and many upgrades

R/V *Sally Ride* Science Hold

SCRIPPS INSTITUTION OF
OCEANOGRAPHY

R/V *Sally Ride* Restech Locker

R/V Sally Ride Lab Setup as Delivered

UC San Diego *Main lab with nesting tables and new benchtops*

R/V Sally Ride Computer Lab

R/V *Sally Ride* Computers/Network

- Network switches
 - Augmented and terminated fiber backbone to service science areas
 - Upgraded backbone (IMCOS, science) from 1GB to redundant 10GB
 - Replaced stateroom switches
- Intermapper device monitor
 - Currently 378 on SR vs. 194 on RR
- Installed KVM over LAN
 - Presentation by Daniel Yang
- Installed High Availability Computing Cluster
 - Presentation by Jon Meyer
- WAPs – Survey and installation

R/V *Sally Ride* Future Directions

- Continuous improvement
 - Uncontaminated seawater intake airlock
 - pCO₂ installation
 - Prepare for international voyages
- Apply lessons learned to improve R/V *Roger Revelle*
 - Midlife Refit happening in 2019
 - Computing infrastructure
 - Lab spaces redesign
