

Marine Seismology Symposium 2020

- 2-day science focused symposium, aiming for ~140 attendees
- Travel support and pre-symposium meet up for early-careers (or new-to-marine seismology landlubbers)
- Date and Location TBD, likely Fall 2020

Welcome to Maritime Conference Center

- Proposal submitted to NSF June 2019, funded lat summer
- Co-PIs: Kasey Aderhold, Emily Roland, Masako Tominaga, Anne Trehu, Bob Woodward
- Organizing Committee: Patrick Hart, Donna Shillington, Sean Higgins, Sean Gulick, Monica Kohler, Helen Janiszewski, Amanda Price, Lindsay Worthington, Anne Becel, John Orcutt

Highlights

- Commitment to draw active source community as well as observational ocean bottom seismology
- Focused on rallying early career marine seismologists and collaborators
- Panel discussion format – encourage Q&A opportunities in areas such as:
 - International collaboration
 - Strategies for synthesizing frontier datasets
- Short workshops adjacent for early career professional development and facility updates.
