

COVID Guidance Updates

UNOLS Council 2022 Spring Meeting

COVID Guidance Updates

- Continue to monitor the COVID situation
- UNOLS Guidance was updated in early June
 - Ships are still expected to conduct a risk assessment prior to each cruise
 - Will be discussing any possible revisions to risk assessment protocols at the upcoming Marine Superintendent meeting
 - Guidance depends on the risk level of the cruise - there is flexibility for Marine Superintendents
- Continue to keep in close contact with GW-MMA for guidance
- Encourage operators and Chief Scientists to reach out if there are questions.
