# MSROC Early Career Workshop

## What is MSROC?

- Marine Seismic Research Operations Committee; OBSIC-OC
- Representatives of marine seismic community; Liaison between community and facilities, NSF
- Input on technological advances, regional planning, international collaborations and facilities, promote training and engagement of early career and new marine seismic researchers

# MSROC Early Career Workshop

## MSROC Early Career Workshop

~40 Participants

**Topics:** Working with facilities, technique development and opensource software, proposal development and conducting science at sea

**Goals:** Engage new and early career users of marine geophysics science facilities; provide networking and career building opportunities; learn from ECR community—what do you need/want from MSROC and facilities?

# MSROC Early Career Workshop
