What is UNOLS?

What is UNOLS?

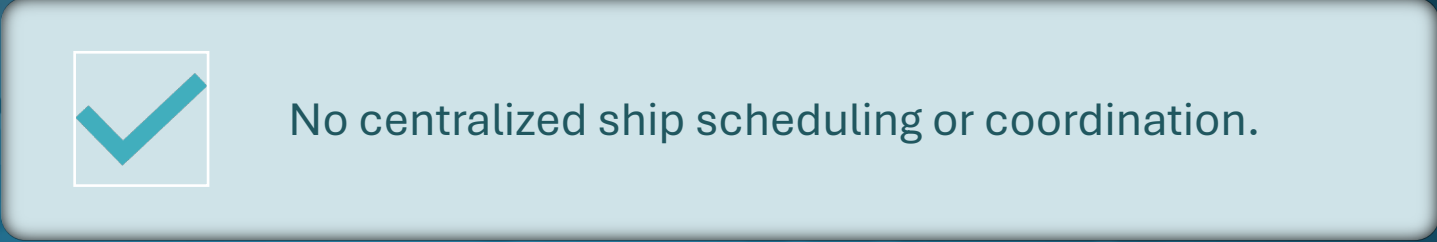

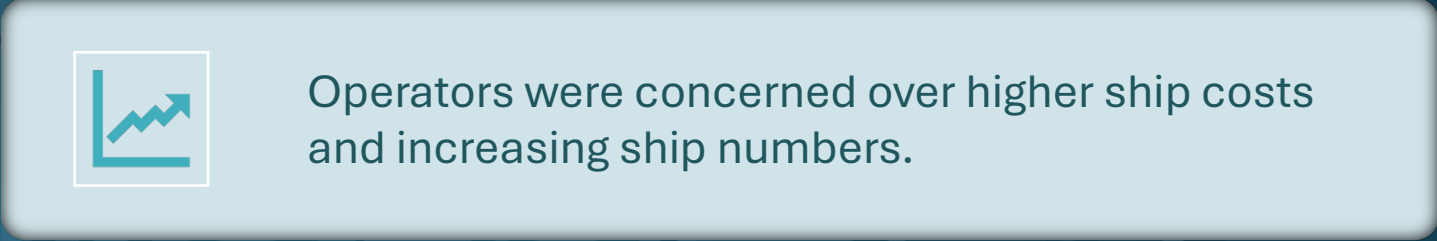

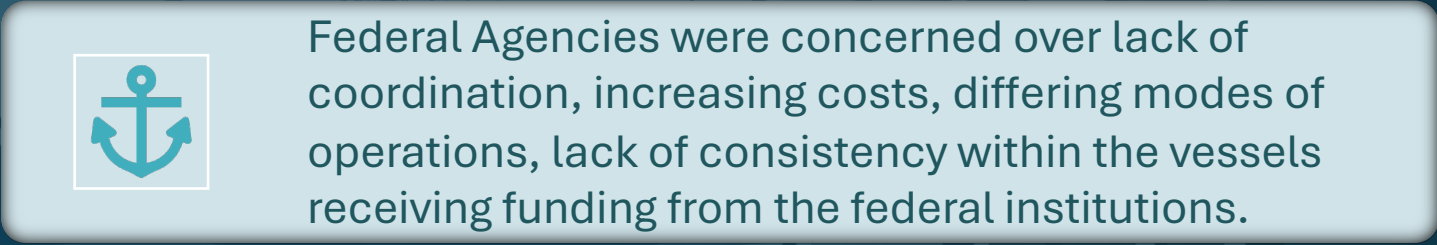

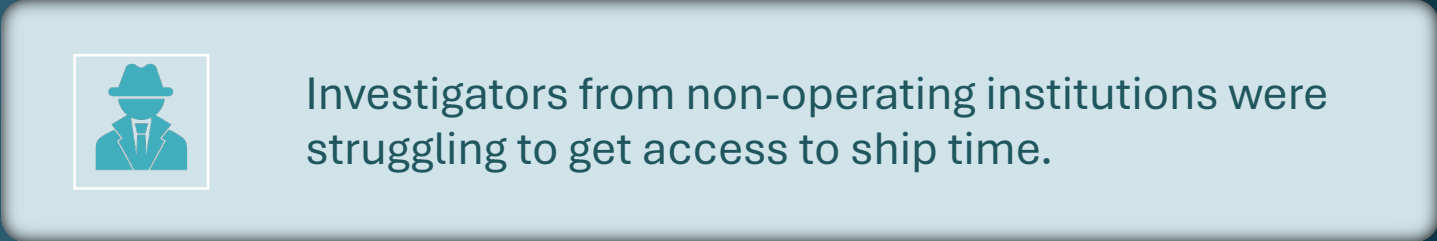

University - National Oceanographic Laboratory System (UNOLS)

An organization of academic institutions (Universities, National Labs, etc.) involved in oceanographic research joined for the purpose of coordinating oceanographic ships schedules and research facilities.

1960's – "Golden Years of Oceanography"

How was UNOLS Formed?

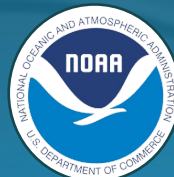

The Stratton Commission: The Model for a Sea Change in National Marine Policy

*William J. Merrell, Mary Hope Katsouros, Jacqueline Bienski
The H. John Heinz III Center for Science, Economics and the Environment • Washington, DC USA*

Stratton Commission Report
1969

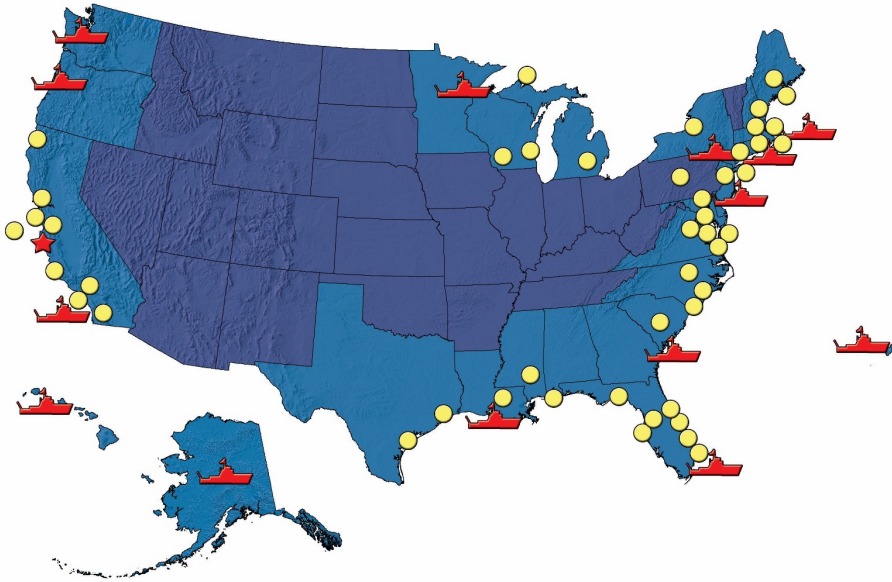

- Stratton Commission Report (1969) recommended forming NOAA, Sea Grant and the National Oceanographic Laboratories (NOLS) to run the Academic Research Fleet.
- Operating Institutions agreed with goals, but opposed excessive federal control
- Worked out another approach with University – NOLS (UNOLS)
 - Community wide ship access
 - Cooperative ship scheduling
 - Standardized ship operations
 - Uniform funding arrangements

What is UNOLS Today?

-  Operator Institution - Note: Multiple ships may operate from a single location.
-  Non-Operator Institution
-  National Oceanographic Aircraft Facility Operator

UNOLS today is a consortium of 61 U.S. institutions

- 14 operating institutions that operate:
 - 17 Research vessels
 - National Deep Submergence Facility
 - National Oceanographic Aircraft Facility
 - National Oceanographic Seismic Facility
- Facilities are either owned by one of the Federal agencies or by individual institutions.
- Elected Council & 8 major committees
- UNOLS Office

UNOLS TEAM

University-National Oceanographic Laboratory System (UNOLS) is an organization of 58 academic institutions and National Laboratories involved in oceanographic research and joined for the purpose of coordinating oceanographic ships' schedules and research facilities.

Doug Russell
UNOLS Executive Secretary

Alice Doyle
Deputy Executive Secretary

Bridget Harrell-Denze
Program Operations Specialist

Stefani Martynenko
Program Assistant

Meegan Corcoran
Cruising Support Manager

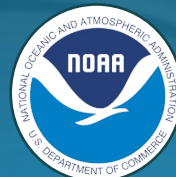

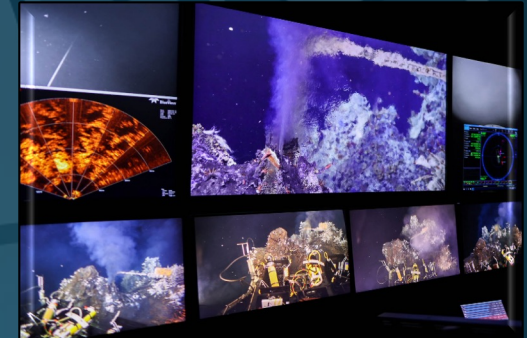

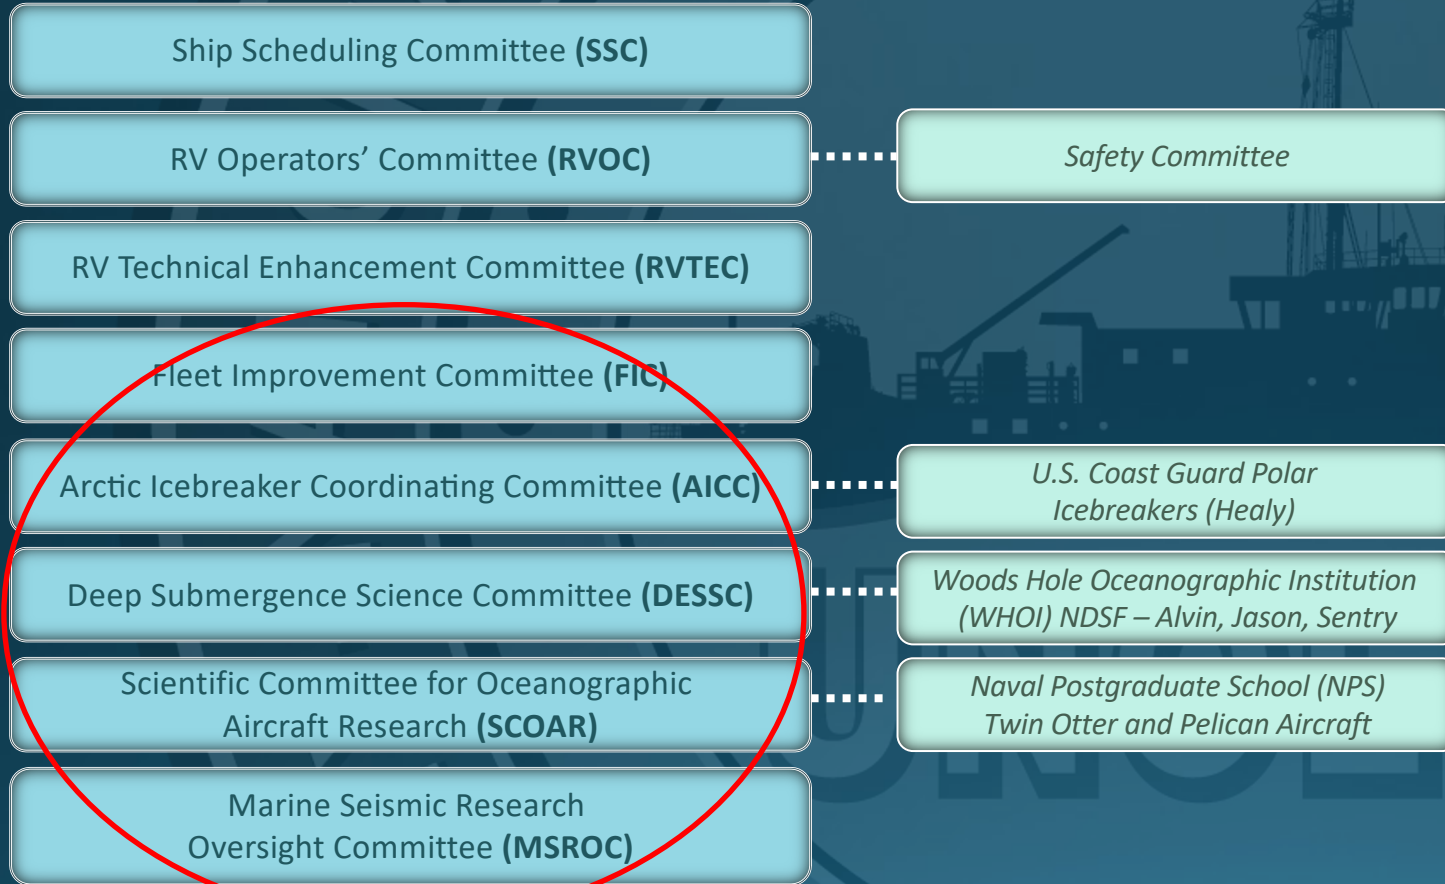

Tara Clemente
Technical Services Manager

Laine Ritter
Admin Support

UNOLS Committees:

UNOLS is a coordinator or facilitator of community wide efforts.

UNOLS Goals:

Promote

Promote broad, coordinated access to oceanographic research facilities

Support

Support continuous improvement of existing facilities

Plan

Plan for and foster support for the oceanographic facilities of the future
