We Need Your Help

We are still having vans returned with issues like wire passes covers not installed, items in the vans not secured, and power cords left outside of the vans.

Please take the extra time to make sure these vans are ready for the transport.

Improvements

- New self-contained eye wash stations being installed.
- Phase 2 Cold Van Environmental Testing started in 2012, current findings at;
<http://marops.cms.udel.edu/uecvp/103ColdVanTesting.html>
- Phase 2 Testing for CSC Documentation for commercial shipping lines stacking aluminum vans completed. CSC Documentation of pooled vans has started. We now have three aluminum vans CSC documented.

Improvements

- Isotope Wipe and SWAB test history for East Coast Van Pool now available online:

<http://marops.cms.udel.edu/uecvp/Isotope01.html>

- New UNOLS Isotope awareness program, see:
