

## Funding for NDSF Vehicles in the Last Decade

Below are the primary funding sources for DSV/Alvin, ROV/Jason and ABE/Sentry in the last decade.

### **National Science Foundation (NSF) (nsf.gov)**

#### Primary

- OCE-CO: Ocean Sciences, Chemical Oceanography
- OCE-BIO: Ocean Sciences, Biological Oceanography
- OCE-MGG: Ocean Sciences, Marine Geology and Geophysics

#### Secondary

- OCE-ODP: Ocean Sciences, Ocean Drilling Program
- OCE-OTIC: Ocean Sciences, Ocean Technology and Interdisciplinary Coordination
- BIO-DEB: Biology Directorate, Division of Environmental Biology
- BIO-MCB: Biology Directorate, Molecular and Cellular Biosciences

#### Minor

- OCE-PO: Ocean Sciences, Physical Oceanography
- BIO-EF: Biology Directorate, Emerging Frontiers
- ESI – Elementary, Secondary and Informal Education (documentary film)

### **National Oceanic and Atmospheric Administration (NOAA)**

OER: Office of Ocean Exploration and Research

- More information at: <http://oceanexplorer.noaa.gov/about/what-we-do/funding-opportunities.html>

### **NAVY/Office of Naval Research (ONR)**

These are mainly vehicle development/operation missions

## **OTHER**

- Bureau of Ocean Energy Management-BOEM
- Private Institutions, e.g. WHOI

## **Additional Information**

- Most of the NSF Program pages have links to recently funded proposals at the bottom of the page – these are great resources for examples of successful proposals
- Historical ship/vehicle schedules, including funding source, PI and ship location/project, can be found at [unols.org](http://unols.org)
