

**AGENDA****Scientific Committee for Oceanographic Aircraft Research Meeting****Monday, November 13th - via teleconference**

- 1) Thank Charles Flagg for his service to SCOAR.
- 2) New SCOAR member status (we have no inquiries thus far).
- 3) Making progress towards setting up an aircraft scheduling procedure vs. joining with the NSF-ATM Facilities Assessment effort that aims to build an aircraft and instrumentation "clearinghouse" and schedule site.

Reading Material: Two documents that describe the NSF Facilities Assessment activity:

- a) [Charge for the National Science Foundation Atmospheric Science Facilities Committee](#) (pdf)
  - b) [Facilities Assessment Subcommittees and Co-Chairs](#) (pdf)
- 4) White paper and community poll/questionnaire on future platform and instrumentation needs vs. joining with the NCAR CAPRIS (Community Airborne Remote-sensing Interdisciplinary Suite) effort.
    - a) The CAPRIS effort is described on the following site:  
<http://www.eol.ucar.edu/development/capris/>
