# OCEAN BOTTOM SEISMOGRAPH INSTRUMENTATION CENTER (OBSIC)

---

## OVERSIGHT COMMITTEE

---

Sub-Committee of MSROC  
John Orcutt, Chair MSROC  
14 August 2019

---

---

# MEMBERS OF NEW OBSIC OVERSIGHT COMMITTEE - OBSIC

---

Jim Gaherty, LDEO/NAU, Chair - Global  
Kasey Aderhold, IRIS - Data management @ IRIS  
Jackie Caplan-Auerbach, WWU - Volcanology  
Zach Eilon, UCSB - Passive source; Global  
Emilie Hooft Toomey, Oregon - active/passive source structure  
Ross Parnell Turner, UCSD - Microseismicity  
Lindsay Worthington, UNM (connection to MSROC) - multichannel

3 year terms although some rotation will begin in 2 years  
Possible first meeting on 21-25 October.  
Will also meet with MSROC at the Sunday before AGU.

---

---

# FUTURE OF MARINE SEISMIC WORKSHOP

---

- 1-3 April 2019 Meeting at NSF
  - Report submitted on 3 May 2019 - 8 page report
  - Option 1/1A: Purchase Langseth or equivalent for 5 years use
    - Currently scheduled to go out of service in 2020
  - Beyond 2015 - acquire a gen'l purpose vessel with seismic capabilities - Alternatively lease ship(s) from multiple provider(s)
-

---

# MARINE SEISMOLOGY SYMPOSIUM 2020

---

- Proposal: Emily Roland, Kasey Aderhold, Masako Tominaga, Anne Trehu – submitted to NSF OCE
  - Continue annual seafloor seismology symposia
-

---

# TOPICS

---

- 1). Enabling the marine seismic community to share exciting results from recent studies and discuss future directions;
  - 2.) promoting early career scientists by showcasing their work and providing opportunities for networking and information sharing; and
  - 3.) Communicating recent changes to critical marine seismic infrastructure so that research can be successfully planned, funded and conducted using existing and evolving tools.
-
