

# RESEARCH FACULTY

## Position Details

---

### Summary

**Operating Title** RESEARCH FACULTY

**Long Classification Title**

**Location** UNH, Durham, NH

**Department** UNH Marine Sciences and Ocean Engineering [UZMSOE]

**Summary of Position** The University of New Hampshire (UNH) School of Marine Science and Ocean Engineering (SMSOE) of the Institute for the Study of Earth, Oceans, and Space (EOS) invites applications at the rank of Associate or Full Research Professor in the broad area of Marine Science. The successful applicant can expect to interact with faculty from the life sciences, ocean engineering, Earth sciences, and oceanography as well as the social sciences and humanities to address critical coastal and marine science problems in new and coordinated ways. The successful candidate will have a strong track record of research demonstrating outstanding potential for establishing his or her own independent research program and to raise his/her salary from external grants, be a proven programmatic and organizational leader, and a distinguished scientist with international connections and diverse perspectives. While primarily a research appointment, graduate level teaching and research interaction with diverse students is encouraged.

**Additional Job Information** The salary and start up package will be negotiable and commensurate with experience and qualifications. UNH provides a generous benefits package including family medical and dental and 403(b) retirement plans. The University actively creates and nurtures a dynamic learning environment in which qualified individuals of differing perspectives, life experiences, and cultural backgrounds pursue academic goals with a mutual respect and shared spirit of inquiry.

**Posting Number/Job Order #** PF0238FY19

**Acceptable Minimum Qualifications** Minimum requirements are a Ph.D. with 2 years of post-doctoral experience and demonstrated capability to acquire external funding and lead a scientific research program. EOS is largely a soft money research institution and the candidate will be expected to develop and maintain a vigorous externally funded research program and to raise his/her salary from external grants. While primarily a research appointment, graduate level teaching and research interaction with students is encouraged.

**Additional Preferred Qualifications**

**Salary Information** Salary is complemented by a comprehensive benefits package which includes medical, dental, retirement, tuition, and paid time off.
